

**Reconstructionist Rabbinical Association**  
**RESOLUTION**  
**HEADWATERS REDWOOD FOREST**  
1998

Whereas, the RRA recognizes the dire situation taking place in the Headwaters Redwood Forest in California;

Whereas the RRA acknowledges the supreme Jewish value to guard and protect the environment; the RRA resolves that we should educate our constituents concerning the plight of the Headwaters Forest and organize a concerted effort to support the passage of the bipartisan Endangered Species Recovery Act (HR 2351). We should also ensure that the Maxxam Corporation operate according to the principles of this Act and assure the protection of the redwood forests and the endangered species living within them.
